

Accepted Manuscript

Development of a robust and validated 2D-QSPR model for sweetness potency of diverse functional organic molecules

Probir Kumar Ojha, Kunal Roy

PII: S0278-6915(17)30139-4

DOI: [10.1016/j.fct.2017.03.043](https://doi.org/10.1016/j.fct.2017.03.043)

Reference: FCT 8962

To appear in: *Food and Chemical Toxicology*

Received Date: 7 December 2016

Revised Date: 28 February 2017

Accepted Date: 23 March 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Development of a robust and validated 2D-QSPR model for sweetness potency
of diverse functional organic molecules**
