Title: Benzo(a)pyrene attenuates the pattern-recognition-receptor induced proinflammatory phenotype of murine macrophages by inducing IL-10 expression in an aryl hydrocarbon receptor-dependent manner

Authors: Christiane Fueldner, Janine Kohlschmidt, Sina Riemschneider, Felix Schulze, Katharina Zoldan, Charlotte Esser, Sunna Hauschildt, Jörg Lehmann

PII: S0300-483X(18)30164-1
DOI: <https://doi.org/10.1016/j.tox.2018.07.011>
Reference: TOX 52064

To appear in: *Toxicology*

Received date: 5-4-2018
Revised date: 18-6-2018
Accepted date: 18-7-2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Benzo(a)pyrene attenuates the pattern-recognition-receptor induced proinflammatory phenotype of murine macrophages by inducing IL-10 expression in an aryl hydrocarbon receptor-dependent manner

Running title: Role of AhR in macrophages activation
