Title: Effects of anti-inflammatory compounds on sulfur mustard injured cells: Recommendations and caveats suggested by *in vitro* cell culture models

Authors: Georg Menacher, Dirk Steinritz, Annette Schmidt, Tanja Popp, Franz Worek, Thomas Gudermann, Horst Thiermann, Frank Balszuweit

PII: S0378-4274(17)31335-8
DOI: <http://dx.doi.org/10.1016/j.toxlet.2017.09.003>
Reference: TOXLET 9947

To appear in: *Toxicology Letters*

Received date: 25-5-2017
Revised date: 7-9-2017
Accepted date: 11-9-2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Title

Effects of anti-inflammatory compounds on sulfur mustard injured cells: recommendations and caveats suggested by *in vitro* cell culture models

Authors
