Title: Involvement of HIF-1 α -regulated miR-21, acting via the Akt/NF- κ B pathway, in malignant transformation of HBE cells induced by cigarette smoke extract

Authors: Lu Lu, Hui Xu, Ping Yang, Junchao Xue, Chao Chen, Qian Sun, Qianlei Yang, Jiachun Lu, Aimin Shi, Qizhan Liu

PII: S0378-4274(18)30073-0
DOI: <https://doi.org/10.1016/j.toxlet.2018.02.027>
Reference: TOXLET 10115

To appear in: *Toxicology Letters*

Received date: 12-12-2017
Revised date: 21-2-2018
Accepted date: 27-2-2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Involvement of HIF-1 α -regulated miR-21, acting via the Akt/NF- κ B pathway, in malignant transformation of HBE cells induced by cigarette smoke extract

Running title: miR-21 regulated by HIF-1 α is involved in cigarette smoke-induced lung carcinogenesis
