Title: IMPORTANCE OF TAU IN COGNITIVE DECLINE
AS REVEALED BY DEVELOPMENTAL EXPOSURE TO
LEAD

Authors: K. Wright, S.W. Bihagi, A. Lahouel, A. Masoud, F.
Mushtaq, A. Leso, A. Eid, N.H. Zawia

PII: S0378-4274(17)31502-3
DOI: <https://doi.org/10.1016/j.toxlet.2017.11.041>
Reference: TOXLET 10032

To appear in: *Toxicology Letters*

Received date: 11-9-2017
Revised date: 28-11-2017
Accepted date: 30-11-2017

High Lights:

1. Cognitive function was impaired by Pb exposure in the absence of tau.
2. The amyloid pathway was not altered by Pb exposure in the absence of tau.
3. Tau is required for Pb exposure to alter both amyloid and Tau related biomarkers.
