Oxidative stress prediction: A preliminary approach using a response surface based technique

M. Sierra, L. Bragg-Gonzalo, J. Grasa, M.J. Muñoz, D. González, F.J. Miana-Mena

PII: S0887-2333(17)30313-2
DOI: doi:[10.1016/j.tiv.2017.10.016](https://doi.org/10.1016/j.tiv.2017.10.016)
Reference: TIV 4147

To appear in: *Toxicology in Vitro*

Received date: 30 May 2017
Revised date: 10 October 2017
Accepted date: 12 October 2017

Miana-Mena, Oxidative stress prediction: A preliminary approach using a response surface based technique. The address for the corresponding author was captured as affiliation for all authors. Please check if appropriate. *Tiv*(2017), doi:[10.1016/j.tiv.2017.10.016](https://doi.org/10.1016/j.tiv.2017.10.016)

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Oxidative stress prediction: a preliminary approach using a response surface based technique.
