Successful outcome of musculoskeletal injury leads to a reduction in chronic fatigue:
A case report

Carl Todd DO

PII: S1360-8592(17)30203-6

DOI: [10.1016/j.jbmt.2017.07.003](https://doi.org/10.1016/j.jbmt.2017.07.003)

Reference: YJBMT 1569

To appear in: *Journal of Bodywork & Movement Therapies*

Received Date: 7 April 2017

Revised Date: 16 May 2017

Accepted Date: 15 July 2017

Please cite this article as: Todd DO, C., Successful outcome of musculoskeletal injury leads to a reduction in chronic fatigue: A case report, *Journal of Bodywork & Movement Therapies* (2017), doi: 10.1016/j.jbmt.2017.07.003.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Successful outcome of musculoskeletal
injury leads to a reduction in chronic fatigue:
a case report**
