Açaí (*Euterpe oleracea* Mart.) dietary intake affects plasma lipids, apolipoproteins, cholesteryl ester transfer to high-density lipoprotein and redox metabolism: a prospective study in women

Daniela Pala, Priscila Oliveira Barbosa, Carla Teixeira Silva, Melina Oliveira de Souza, Fatima Rodrigues Freitas, Ana Carolina Pinheiro Volp, Raul Cavalcante Maranhão, Renata Nascimento de Freitas

PII: S0261-5614(17)30051-1

DOI: [10.1016/j.clnu.2017.02.001](https://doi.org/10.1016/j.clnu.2017.02.001)

Reference: YCLNU 3049

To appear in: *Clinical Nutrition*

Received Date: 18 August 2015

Revised Date: 14 July 2016

Accepted Date: 2 February 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
