This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Title:** Test-Retest Reliability of Ultrasound Measures of Intrinsic Foot Motor Function

**Authors:**

John J. Fraser, PT, PhD, OCS<sup>1</sup>

L. Colby Mangum, M.Ed., ATC<sup>1</sup>

Jay Hertel, Ph.D., ATC<sup>1</sup>

**Affiliations:** 1. Department of Kinesiology, University of Virginia, 210 Emmet Street South, Charlottesville, VA 22904-4407, USA;

Conflicts of Interest: None

Disclosures: The views expressed in this article are those of the author(s) and do not necessarily reflect the official policy or position of the Department of the Navy, Department of Defense, or the United States Government. Lieutenant Commander John J. Fraser is a military service member and this work was prepared as part of his official duties. Title 17, USC, §105 provides that 'Copyright protection under this title is not available for any work of the U.S. Government.' Title 17, USC, §101 defines a U.S. Government work as a work prepared by a military service member or employee of the U.S. Government as part of that person's official duties.

Presented at the American Physical Therapy Association, Combined Sections Meeting, February 18, 2017, San Antonio, TX and is archived at 10.7490/f1000research.1114550.1.
