This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

The Prognostic Impact of Mild Hypokalemia in Terms of Death and Stroke in the General Population – a Prospective Population Study

Clinical Research Study

First author:

Nick Mattsson, MD. (a)

Authors (in sequence):

Olav Wendelboe Nielsen, MD, PhD, DMSc. (a)

Linda Johnson, MD, PhD (d)

Eva Prescott, MD, DMSc. (a, c)

Peter Schnohr, MD, DMSc. (c)

Gorm Boje Jensen, MD, DMSc. (c)

Lars Køber, MD, DMSc. (b)

Ahmad Sajadieh, MD, DMSc. (a)

(a) Department of Cardiology, Copenhagen University Hospital of Bispebjerg, Copenhagen, Denmark

(b) Department of Cardiology, Copenhagen University Hospital of Rigshospitalet, Copenhagen, Denmark

(c) Copenhagen City Heart Study. Copenhagen University Hospital of Frederiksberg, Copenhagen, Denmark

(d) Department of Clinical Sciences, Lund University, Skåne University Hospital, Malmö, Sweden.

Address for correspondence:

Nick Mattsson, MD
