This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Title Page**Implications of Anomalous Left Coronary Artery Origin****Authors:**

Brian B. Agbor-Etang, MD. University of California, Riverside

Van T. La, DO. University of California, Riverside

Sami B. Nazzal, MD. St Bernadine Medical Center

Ramdas G. Pai, MD. University of California, Riverside

Correspondence to:

Ramdas G. Pai MD

Professor and Chairman of Medicine

University of California Riverside School of Medicine

900 University Avenue, SOM Education Bldg #2619

Riverside, CA 92521

Tel: 951.827.3931; Fax: 951.827.7238

Email: Ramdas.pai@ucr.edu

Funding sources: None

Conflict of interest: Nothing to disclose from any of the authors

Verification: All authors had access to the data and a role in writing the manuscript.

Article type: Clinical communications to the Editor

Key words: Anomalous, Coronary artery, origin
