Article Type: Brief Observation

Abstract word count: 250

Text word count (including abstract and references): 3143

Tables: 1

Funding: Dr. McCall was supported with use of facilities at the Pittsburgh VA and the Office of Academic Affiliations Advanced Fellowship in Women's Health.

Authorship Statement: The contents of this manuscript do not represent the views of the U.S. Department of Veterans Affairs or the U.S. Government. All authors attest that the manuscript represents original work and that it is not under consideration for publication elsewhere. All authors meet the criteria for authorship and can sign a statement attesting authorship, disclosing all potential conflicts of interest, and releasing the copyright should the manuscript be accepted for publication. All tables are original work and can be reprinted.

Conflict of Interest Statement: JM and BP have no conflicts of interest to report. DR has an equity stake in the company that conducted the intervention. Therefore, he was not involved in the collection or analysis of the data.

Acknowledgement: We thank Michelle Woods for editorial assistance.
