Disclosures:

Sources of support: This research was supported by a grant the Patient-Centered Outcomes Research Institute (R-IHS-1306-02198, Von Korff). The contribution from Dr. Thakral was supported by National Institute on Aging, grant number: T32-AG-0276-7709. The study sponsors had no role in study design; collection, analysis, and interpretation of data; writing the report; and the decision to submit the report for publication.

Financial Disclosures/Conflicts of Interest: In the past 3 years, Dr. Von Korff was the Principal Investigator of grants to Group Health Research Institute (GHRI) from Pfizer Inc. that concerned opioids. These grants also supported work on opioids by Dr. Shortreed, Ms. Saunders, and Mr. Walker. Drs. Von Korff and Shortreed are con-investigators on grants to GHRI from the Campbell Alliance for FDA-mandated post-marketing surveillance studies of extended release opioids. Dr. Shortreed has also received funding from research grants awarded to GHRI by Bristol-Myers Squibb. Ms. Saunders owns stock in Merck. The remaining authors report no conflicts.
