This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Title:

Moral distress at the end of a life: when family and clinicians don't agree on implantable cardioverter-defibrillator deactivation

Authors:

Jill M. Steiner, MD¹; Kristen K. Patton, MD¹; Jordan M. Prutkin, MD, MHS¹; James N. Kirkpatrick, MD^{1,2}

Institutions and Affiliations:

¹Division of Cardiology, University of Washington, Seattle, Washington, USA

²Department of Bioethics and Humanities, University of Washington, Seattle, Washington, USA

Funding: This research did not receive any specific grant from funding agencies in the public, commercial, or not-for-profit sectors.

Disclosures: none (all authors)

Tables/Figures: none

References: 18

Word Count: 2497
