Impact of non-adrenergic vasopressors on macro- and microvascular coupling in distributive shock

M. Hessler, M.D., T.G. Kampmeier, M.D., S. Rehberg, M.D., Ph.D.

PII: S1521-6896(16)30071-4

DOI: [10.1016/j.bpa.2016.10.010](https://doi.org/10.1016/j.bpa.2016.10.010)

Reference: YBEAN 920

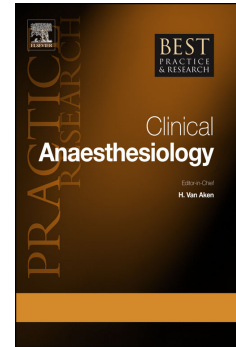

To appear in: *Best Practice & Research Clinical Anaesthesiology*

Received Date: 5 October 2016

Accepted Date: 31 October 2016

Please cite this article as: Hessler M, Kampmeier T, Rehberg S, Impact of non-adrenergic vasopressors on macro- and microvascular coupling in distributive shock, *Best Practice & Research Clinical Anaesthesiology* (2016), doi: 10.1016/j.bpa.2016.10.010.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Impact of non-adrenergic vasopressors on macro- and microvascular coupling
in distributive shock**
