Prognostic and therapeutic implications of circulating androgen receptor gene copy number in prostate cancer patients using droplet digital PCR

Sarah Buelens, Tom Claeys, Bert Dhondt, Filip Poelaert, Matthijs Vynck, Nurten Yigit, Olivier Thas, Piet Ost, Jo Vandesompele, Nicolaas Lumen, Candy Kumps

PII: S1558-7673(17)30394-4

DOI: [10.1016/j.clgc.2017.12.008](https://doi.org/10.1016/j.clgc.2017.12.008)

Reference: CLGC 985

To appear in: *Clinical Genitourinary Cancer*

Received Date: 14 September 2017

Revised Date: 7 December 2017

Accepted Date: 15 December 2017

Please cite this article as: Buelens S, Claeys T, Dhondt B, Poelaert F, Vynck M, Yigit N, Thas O, Ost P, Vandesompele J, Lumen N, Kumps C, Prognostic and therapeutic implications of circulating androgen receptor gene copy number in prostate cancer patients using droplet digital PCR, *Clinical Genitourinary Cancer* (2018), doi: 10.1016/j.clgc.2017.12.008.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1 **Prognostic and therapeutic implications of circulating androgen**
2 **receptor gene copy number in prostate cancer patients using**
3 **droplet digital PCR**
