Cast nephropathy and deceptively low absolute serum free light chain levels:
resolution of a challenging case and systematic review of the literature

Michael P. Rassner, Maximilian Seidl, Ulrich Salzer, S. Vincent Rajkumar, Thomas Epting, Ralph Wäsch, Elke Neumann-Haefelin, Monika Engelhardt

PII: S2152-2650(17)31014-5

DOI: [10.1016/j.clml.2017.09.019](https://doi.org/10.1016/j.clml.2017.09.019)

Reference: CLML 1017

To appear in: *Clinical Lymphoma, Myeloma and Leukemia*

Received Date: 26 July 2017

Revised Date: 14 August 2017

Accepted Date: 25 September 2017

Please cite this article as: Rassner MP, Seidl M, Salzer U, Rajkumar SV, Epting T, Wäsch R, Neumann-Haefelin E, Engelhardt M, Cast nephropathy and deceptively low absolute serum free light chain levels: resolution of a challenging case and systematic review of the literature, *Clinical Lymphoma, Myeloma and Leukemia* (2017), doi: 10.1016/j.clml.2017.09.019.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Cast nephropathy and deceptively low absolute serum free light chain levels:
resolution of a challenging case and systematic review of the literature**

Michael P. Rassner¹, Maximilian Seidl², Ulrich Salzer³, S. Vincent Rajkumar⁴, Thomas Epting⁵, Ralph Wäsch¹, Elke Neumann-Haefelin^{6*}, and Monika Engelhardt^{1*}
