This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Effect of Complete or Partial Proteinuria Recovery on Long Term Outcomes of Lupus Nephritis

Lessons Learned from Real-World Life Lupus Nephritis Patients

AUTHORS

Jorge Medina-Rosas, Fung William, Jiandong Su and Zahi Touma

AUTHORS' AFFILIATIONS:

Jorge Medina-Rosas, MD, Clinical and Research Fellow, University of Toronto Lupus Clinic, Toronto Western Hospital, Centre for Prognosis Studies in the Rheumatic Diseases, Toronto, Ontario, Canada

William A Fung, MD, Internal Medicine

University of Toronto Lupus Clinic, Toronto Western Hospital, Centre for Prognosis Studies in the Rheumatic Diseases, Toronto, Ontario, Canada

Jiandong Su, MSc, University of Toronto Lupus Clinic, Centre for Prognosis Studies in the Rheumatic Diseases, Toronto Western Hospital, Toronto, Ontario, Canada

Zahi Touma, MD, FACP, FACR, PhD, Assistant Professor of Medicine, University of Toronto Lupus Clinic, Toronto Western Hospital, Centre for Prognosis Studies in the Rheumatic Diseases, Toronto, Ontario, Canada

AUTHOR OF CORRESPONDENCE:

Zahi Touma, MD, FACP, FACR, PhD

Centre for Prognosis Studies in the Rheumatic Diseases, Toronto Western Hospital
EW, 1-412, 399 Bathurst Street, Toronto, Ontario, Canada, M5T 2S8
