

## Accepted Manuscript

Inverse association between sympathetic nervous system activity and bone mass in middle aged overweight individuals

Elisabeth Lambert, Sarah Phillips, Ainura Tursunaliyeva, Nina Eikelis, Carolina Sari, John Dixon, Nora Straznicky, Mariee Grima, Markus Schlaich, Gavin Lambert

PII: S8756-3282(18)30144-3  
DOI: doi:[10.1016/j.bone.2018.03.025](https://doi.org/10.1016/j.bone.2018.03.025)  
Reference: BON 11609  
To appear in: *Bone*  
Received date: 16 January 2018  
Revised date: 16 March 2018  
Accepted date: 28 March 2018

Please cite this article as: Elisabeth Lambert, Sarah Phillips, Ainura Tursunaliyeva, Nina Eikelis, Carolina Sari, John Dixon, Nora Straznicky, Mariee Grima, Markus Schlaich, Gavin Lambert , Inverse association between sympathetic nervous system activity and bone mass in middle aged overweight individuals. The address for the corresponding author was captured as affiliation for all authors. Please check if appropriate. *Bone*(2017), doi:[10.1016/j.bone.2018.03.025](https://doi.org/10.1016/j.bone.2018.03.025)

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Inverse association between sympathetic nervous system activity and bone mass in middle aged overweight individuals**
