## **Accepted Manuscript**

Potential clinical applications of placental stem cells for use in fetal therapy of birth defects

Melissa Vanover, Aijun Wang, Diana Farmer

PII: S0143-4004(17)30276-X

DOI: 10.1016/j.placenta.2017.05.010

Reference: YPLAC 3653

To appear in: Placenta

Received Date: 16 February 2017

Revised Date: 22 April 2017 Accepted Date: 16 May 2017

Please cite this article as: Vanover M, Wang A, Farmer D, Potential clinical applications of placental stem cells for use in fetal therapy of birth defects, *Placenta* (2017), doi: 10.1016/j.placenta.2017.05.010.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
