

Accepted Manuscript

Title: Do multiple karyomorphs and population genetics of freshwater darter characines (*Apareiodon affinis*) indicate chromosomal speciation?

Authors: Viviane Demétrio do Nascimento, Karina Almeida Coelho, Viviane Nogaroto, Rafael Bonfim de Almeida, Kaline Ziemniczak, Liano Centofante, Carla Simone Pavanelli, Rodrigo Augusto Torres, Orlando Moreira-Filho, Marcelo Ricardo Vicari

PII: S0044-5231(17)30120-1
DOI: <https://doi.org/10.1016/j.jcz.2017.12.006>
Reference: JCZ 25521

To appear in:

Received date: 28-7-2017
Revised date: 10-11-2017
Accepted date: 19-12-2017

Please cite this article as: do Nascimento, Viviane Demétrio, Coelho, Karina Almeida, Nogaroto, Viviane, de Almeida, Rafael Bonfim, Ziemniczak, Kaline, Centofante, Liano, Pavanelli, Carla Simone, Torres, Rodrigo Augusto, Moreira-Filho, Orlando, Vicari, Marcelo Ricardo, Do multiple karyomorphs and population genetics of freshwater darter characines (*Apareiodon affinis*) indicate chromosomal speciation?. *Zoologischer Anzeiger - A Journal of Comparative Zoology* <https://doi.org/10.1016/j.jcz.2017.12.006>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Do multiple karyomorphs and population genetics of freshwater darter characines (*Apareiodon affinis*) indicate chromosomal speciation?
