This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Title Page: Letter to the Editor**

**Title:** SKIN COMPLICATIONS OF INSULIN INJECTIONS: A CASE PRESENTATION AND A POSSIBLE EXPLANATION OF HYPOGLYCAEMIA

**Key Words:** Lipohypertrophy and Hypoglycaemia in a diabetic patient.

**Manuscript Count:**

- **Word count:** 600
- **Tables:** 0
- **Figures:** 2

**Names of Authors:** S Gentile <sup>a,c</sup>, F Strollo <sup>b</sup>, T Della Corte <sup>a</sup>, G Marino <sup>a</sup>, and G Guarino <sup>a</sup>

**Institutions:** <sup>a</sup> Department of Internal Medicine, Campania University “Luigi Vanvitelli”, Naples, Italy

<sup>b</sup> Endocrinology and Diabetes, San Raffaele Termini Institute, Rome, Italy

<sup>c</sup> Coordinator of the Study Group on Injection Technique of AMD (Medical Association of Diabetology)

**Institutions at which the research was conducted:** Department of Internal Medicine, Campania University “Luigi Vanvitelli”, Naples, Italy

**Corresponding Author:** Sandro Gentile, MD, PhD, s.gentile1949@gmail.com
