

## Accepted Manuscript

Activation of Imidazoline receptor I2, and improved pancreatic  $\beta$ -cell function in human islets

Stefan Amisten, Pontus Duner, Olof Asplund, Israa Mohammed Al-Amily, Leif Groop, Albert Salehi

PII: S1056-8727(18)30319-2  
DOI: doi:[10.1016/j.jdiacomp.2018.06.010](https://doi.org/10.1016/j.jdiacomp.2018.06.010)  
Reference: JDC 7230

To appear in: *Journal of Diabetes and Its Complications*

Received date: 21 March 2018  
Revised date: 28 May 2018  
Accepted date: 19 June 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

## Activation of Imidazoline receptor I<sub>2</sub>, and improved pancreatic $\beta$ -cell function in human islets
