

## Accepted Manuscript

An overview of the APA locus and arcelin proteins and their biotechnological potential in the control of bruchids

Maria Angélica Gaag Duarte, Glaucia Barbosa Cabral, Abdulrazak Baba Ibrahim, Francisco José Lima Aragão

PII: S2352-2151(18)30009-6  
DOI: doi:[10.1016/j.aggene.2018.05.001](https://doi.org/10.1016/j.aggene.2018.05.001)  
Reference: AGGENE 70

To appear in:

Received date: 25 February 2018  
Revised date: 25 April 2018  
Accepted date: 3 May 2018

Please cite this article as: Maria Angélica Gaag Duarte, Glaucia Barbosa Cabral, Abdulrazak Baba Ibrahim, Francisco José Lima Aragão , An overview of the APA locus and arcelin proteins and their biotechnological potential in the control of bruchids. The address for the corresponding author was captured as affiliation for all authors. Please check if appropriate. Aggene(2017), doi:[10.1016/j.aggene.2018.05.001](https://doi.org/10.1016/j.aggene.2018.05.001)

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
