The address for the corresponding author was captured as affiliation for all authors. Please check if appropriate. *Gene*(2017), doi: [10.1016/j.gene.2018.04.040](https://doi.org/10.1016/j.gene.2018.04.040)

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Lamin A/C might be involved in the EMT signalling pathway

Running title: The role of lamin A/C in EMT in prostate cancer

Key words: Prostate cancer; lamin A/C; epithelial-mesenchymal transition;
mesenchymal-epithelial transition

Abbreviations: PC, prostate cancer; GS, Gleason score; EMT, the epithelial to
mesenchymal transition; MET, the mesenchymal to epithelial transition; TMA, tissue
microarray BPH, benign epithelial hyperplasia; OD, optical density; CAPRA, cancer
of the Prostate Risk Assessment; DAB, diaminobenzidine; LCRs, low-complexity
regions; PPI, protein-protein interaction .
