Tracking carbapenemase-producing bacteria by molecular typing:
Population diversity and sampling pitfall

Sophie Baranovsky, Sara Romano-Bertrand, Yann Dumont,
Agnès Masnou, Florence Hammer, Sylvain Godreuil, Sylvie
Parer, Estelle Jumas-Bilak

PII: S1567-1348(18)30519-7
DOI: doi:[10.1016/j.meegid.2018.07.020](https://doi.org/10.1016/j.meegid.2018.07.020)
Reference: MEEGID 3592
To appear in: *Infection, Genetics and Evolution*
Received date: 19 March 2018
Revised date: 14 July 2018
Accepted date: 17 July 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
