

## Accepted Manuscript

Understanding dengue virus evolution to support epidemic surveillance and counter-measure development

S. Pollett, M.C. Melendrez, I. Maljkovic Berry, S. Duchêne, H. Salje, Cummings DAT, R.G. Jarman

PII: S1567-1348(18)30211-9  
DOI: doi:[10.1016/j.meegid.2018.04.032](https://doi.org/10.1016/j.meegid.2018.04.032)  
Reference: MEEGID 3498  
To appear in: *Infection, Genetics and Evolution*  
Received date: 13 September 2017  
Revised date: 20 April 2018  
Accepted date: 24 April 2018

Please cite this article as: S. Pollett, M.C. Melendrez, I. Maljkovic Berry, S. Duchêne, H. Salje, Cummings DAT, R.G. Jarman , Understanding dengue virus evolution to support epidemic surveillance and counter-measure development. The address for the corresponding author was captured as affiliation for all authors. Please check if appropriate. Meegid(2018), doi:[10.1016/j.meegid.2018.04.032](https://doi.org/10.1016/j.meegid.2018.04.032)

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
