Population genetics-informed meta-analysis in seven genes associated with risk to dengue fever disease

Marisa Oliveira, Diana P. Saraiva, Bruno Cavadas, Verónica Fernandes, Nicole Pedro, Isabelle Casademont, Fanny Koeth, Farida Alshamali, Nourdin Harich, Lotfi Cherni, Beatriz Sierra, Maria G. Guzman, Anavaj Sakuntabhai, Luisa Pereira

PII: S1567-1348(18)30196-5

DOI: [doi:10.1016/j.meegid.2018.04.018](https://doi.org/10.1016/j.meegid.2018.04.018)

Reference: MEEGID 3484

To appear in: *Infection, Genetics and Evolution*

Received date: 9 February 2018

Revised date: 2 April 2018

Accepted date: 13 April 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
