This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Relationship between Social Cognition and traditional cognitive impairment in Progressive Multiple Sclerosis and possible implicated neuroanatomical regions

Authors:

Ciampi E, Neurology Department, Pontifical Catholic University of Chile, Sotero del Río Hospital, Santiago, Chile

Uribe-San-Martin R, Neurology Department, Pontifical Catholic University of Chile, Sotero del Río Hospital, Santiago, Chile

Vásquez M, Neurology Department, Pontifical Catholic University of Chile, Santiago, Chile

Ruiz-Tagle A, Centre for Advanced Research in Education, University of Chile, Santiago, Chile

Labbe T, Pontifical Catholic University of Chile, Santiago, Chile

Cruz JP, Radiology Department, Pontifical Catholic University of Chile, Santiago, Chile

Lillo P, Neurology Department South, Faculty of Medicine, University of Chile, Geroscience Center for Brain Health and Metabolism, Santiago, Chile
