

Accepted Manuscript

Fractional Flow Reserve in Below The Knee Arteries with Critical Limb Ischemia and Validation Against Gold-standard Morphologic, Functional Measures and Long Term Clinical Outcomes

Szilárd Róna, Gábor G. Tóth, Péter Sótonyi, Olivier F. Bertrand, Balázs Nemes, Béla Merkely, Kálmán Hüttl

PII: S1553-8389(17)30247-6
DOI: doi: [10.1016/j.carrev.2017.07.007](https://doi.org/10.1016/j.carrev.2017.07.007)
Reference: CARREV 1100

To appear in: *Cardiovascular Revascularization Medicine*

Received date: 20 April 2017
Revised date: 10 July 2017
Accepted date: 11 July 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
