This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Outcomes of Transcatheter Aortic Valve Replacement Using a Minimalist Approach

Short Title: TAVR under monitored anesthesia care

Sergey Gurevich, MD (1), Brett Oestreich, MD (1), Rosemary F Kelly, MD (1), Mackenzie Mbai, MD (1,2), Stefan Bertog, MD (1,2), Karen Ringsred, MD (2), Annette Lawton, RN (2), Brenda Thooft, RN (2), Julie Wagner, RN (2), Santiago Garcia, MD (1,2)

Authors' Affiliations:

- 1- University of Minnesota Fairview Medical Center. Minneapolis, MN
- 2- Minneapolis VA Healthcare System. Minneapolis, MN

Word count: 3952

Key words: Transcatheter valve replacement, outcomes, moderate sedation

Corresponding Author:

Santiago Garcia, MD

Minneapolis VA Medical Center

Associate Professor of Medicine, University of Minnesota

Address: One Veterans Drive (111-C)

Minneapolis, MN. 55417

Phone: 612-467-3670

Fax: 612-727-5668
