This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Impact of Atrial Fibrillation in Patients with Chronic Kidney Disease Undergoing
Transcatheter Aortic Valve Replacement: Insights of the Healthcare Cost and Utilization
Project's National Inpatient Sample**

Alice Cheung, BSc ^a; Fabio V. Lima, MD, MPH ^b; Tzyy Yun M. Yen, MPH, MAPP ^c; Puja
Parikh, MD ^a; Javed Butler, MD, MPH ^a; Luis Gruberg, MD ^a

From: ^a Department of Medicine, Division of Cardiovascular Diseases, Stony Brook University
Medical Center, Stony Brook, New York; ^b Department of Medicine, Brown University Rhode
Island Hospital, Providence, Rhode Island; ^c Weill-Cornell Medical Center, New York, NY.

Brief Title: Atrial Fibrillation, Chronic Kidney Disease and TAVR

Disclosure Statement: The authors declare no conflicts of interest.

Keywords: atrial fibrillation, chronic kidney disease, TAVR
