

## Accepted Manuscript

Age, sex, mating status, but not social isolation interact to shape basal immunity  
in a group-living insect

Fanny Vogelweith, Susanne Foitzik, Joël Meunier

PII: S0022-1910(17)30289-5  
DOI: <https://doi.org/10.1016/j.jinsphys.2017.10.007>  
Reference: IP 3714

To appear in: *Journal of Insect Physiology*

Received Date: 18 July 2017  
Revised Date: 10 September 2017  
Accepted Date: 12 October 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Age, sex, mating status, but not social isolation interact to shape  
basal immunity in a group-living insect**
