

## Accepted Manuscript

Taste phenotype associates with cardiovascular disease risk factors via diet quality in multivariate modeling

Mastaneh Sharafi, Shristi Rawal, Maria Luz Fernandez, Tania B. Huedo-Medina, Valerie B. Duffy

PII: S0031-9384(18)30228-2  
DOI: doi:[10.1016/j.physbeh.2018.05.005](https://doi.org/10.1016/j.physbeh.2018.05.005)  
Reference: PHB 12192  
To appear in: *Physiology & Behavior*  
Received date: 12 December 2017  
Revised date: 24 April 2018  
Accepted date: 6 May 2018

Please cite this article as: Mastaneh Sharafi, Shristi Rawal, Maria Luz Fernandez, Tania B. Huedo-Medina, Valerie B. Duffy , Taste phenotype associates with cardiovascular disease risk factors via diet quality in multivariate modeling. The address for the corresponding author was captured as affiliation for all authors. Please check if appropriate. Phb(2017), doi:[10.1016/j.physbeh.2018.05.005](https://doi.org/10.1016/j.physbeh.2018.05.005)

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Taste phenotype associates with cardiovascular disease risk factors via diet quality in multivariate modeling**
