This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Title

Combined cryoballoon and radiofrequency ablation versus radiofrequency ablation alone for long-standing persistent atrial fibrillation

Short title

Combined versus totally radiofrequency ablation

Authors

Tümer Erdem Guler, MD 1

Tolga Aksu, MD, Associate Professor of Cardiology, FESC, FEHRA 1

Kivanc Yalin, MD, Assistant Professor of Cardiology, FEHRA 2

Sukriye Ebru Golcuk, MD, Assistant Professor of Cardiology 3

Ferit Onur Mutluer, MD 4

Serdar Bozyel, MD 1
