Fax: 214-645-2405

Statement of each author's contributions to the study:

In accordance with the ICMJE recommendations, all three authors (KK, KP and ARD) have met all four of the following criteria:

- Substantial contributions to the conception or design of the work; or the acquisition, analysis, or interpretation of data for the work;
- Drafting the work or revising it critically for important intellectual content;
- Final approval of the version submitted for publication;
- Accountability for all aspects of the work in ensuring that questions related to the accuracy or integrity of any part of the work are appropriately investigated and resolved.

All drafts of the manuscript have been written exclusively by the authors. No part of the manuscript is to have been prepared by outside parties, professional writers, or individuals with less than full authorship status.
