Quantification of disturbed coronary flow by disturbed vorticity index and relation with fractional flow reserve

Miao Chu, Clemens von Birgelen, Yingguang Li, Jelmer Westra, Junqing Yang, Niels R. Holm, Johan H.C. Reiber, William Wijns, Shengxian Tu

PII: S0021-9150(18)30086-8

DOI: [10.1016/j.atherosclerosis.2018.02.023](https://doi.org/10.1016/j.atherosclerosis.2018.02.023)

Reference: ATH 15394

To appear in: *Atherosclerosis*

Received Date: 19 December 2017

Revised Date: 27 January 2018

Accepted Date: 14 February 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
