Outcomes and mortality prediction model of critically ill adults with acute respiratory failure and interstitial lung disease

**Running head:** Prediction model in critically ill patients with ILD

**Authors:** Whitney Gannon, MSN, ACNP-BC<sup>1</sup>, David J Lederer, MD, MS<sup>1,3</sup>, Mauer Biscotti, MD<sup>2</sup>, Azka Javaid, BS<sup>1</sup>, Nina Patel, MD<sup>1</sup>, Daniel Brodie, MD<sup>1</sup>, Matthew Bacchetta MD, MBA, MA<sup>2\*</sup>, and Matthew Baldwin, MD, MS<sup>1\*</sup>

**Affiliations:**

<sup>1</sup>Division of Pulmonary, Allergy, and Critical Care Medicine, Columbia University College of Physicians and Surgeons/New York-Presbyterian Hospital, New York, NY

<sup>2</sup>Division of Cardiothoracic Surgery, Columbia University College of Physicians and Surgeons/New York-Presbyterian Hospital, New York, NY

<sup>3</sup>Columbia University Mailman School of Public Health, Department of Epidemiology, New York, NY

\*Drs. Bacchetta and Baldwin are co-senior authors on the paper

**Corresponding Author:** Matthew R. Baldwin, MD, MS, 622 West 168<sup>th</sup> Street PH-8E, New York, NY 10032. mrb45@cumc.columbia.edu

**Conflict of Interest:** Dr. Lederer has served as a consultant for Roche, Veracyte, Fibrogen, Global Blood Therapeutics, Sanofi Genzyme, Boehringer-Ingelheim and Philips Respironics. Dr. Brodie is currently on the medical advisory boards of ALung Technologies and Kadence. All others declare no conflicts of interest.

**Funding Information:** This study was supported by K23 AG045560 and a Columbia University Aging Center Faculty Research Fellowship (MRB), K24 HL115354 and R01 HL103676 (DJL), and UL1 TR001873.
