

Accepted Manuscript

Point: Should all initial episodes of hemoptysis be evaluated by bronchoscopy? Yes

José L. Cárdenas-García, MD, David Feller-Kopman, MD, FCCP

PII: S0012-3692(17)32874-X

DOI: [10.1016/j.chest.2017.09.036](https://doi.org/10.1016/j.chest.2017.09.036)

Reference: CHEST 1366

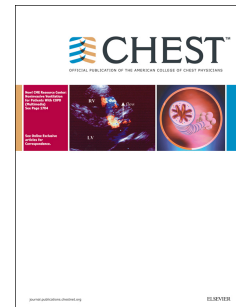

To appear in: *CHEST*

Received Date: 20 September 2017

Accepted Date: 20 September 2017

Please cite this article as: Cárdenas-García JL, Feller-Kopman D, Point: Should all initial episodes of hemoptysis be evaluated by bronchoscopy? Yes, *CHEST* (2017), doi: 10.1016/j.chest.2017.09.036.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Point: Should all initial episodes of hemoptysis be evaluated by bronchoscopy? Yes
