COPD-OSA Overlap Syndrome: evolving evidence regarding epidemiology, clinical consequences, and management

Walter T. McNicholas

PII: S0012-3692(17)30742-0

DOI: [10.1016/j.chest.2017.04.160](https://doi.org/10.1016/j.chest.2017.04.160)

Reference: CHEST 1076

To appear in: *CHEST*

Received Date: 15 February 2017

Revised Date: 11 April 2017

Accepted Date: 13 April 2017

Please cite this article as: McNicholas WT, COPD-OSA Overlap Syndrome: evolving evidence regarding epidemiology, clinical consequences, and management, *CHEST* (2017), doi: 10.1016/j.chest.2017.04.160.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

COPD-OSA Overlap Syndrome: evolving evidence regarding epidemiology, clinical consequences, and management.

Walter T. McNicholas

Dept. of Respiratory and Sleep Medicine, St. Vincent's University Hospital,

School of Medicine, University College Dublin, Dublin, Ireland

Address for correspondence:

Professor Walter McNicholas MD, FCCP, FERS

Department of Respiratory and Sleep Medicine

St. Vincent's University Hospital,

Elm Park, Dublin 4, IRELAND.

E-mail: walter.mcnicholas@ucd.ie

Key words: COPD, OSA, overlap syndrome, epidemiology, co-morbidity, management

Running head: COPD-OSA overlap

Conflict of Interest: None
