

Accepted Manuscript

Title: The effect of acute caffeine intake on insulin sensitivity and glycemic control in people with diabetes

Authors: Lisa Dewar, Roschelle Heuberger

PII: S1871-4021(17)30096-6
DOI: <http://dx.doi.org/doi:10.1016/j.dsx.2017.04.017>
Reference: DSX 771

To appear in: *Diabetes & Metabolic Syndrome: Clinical Research & Reviews*

Received date: 31-3-2017

Accepted date: 17-4-2017

Please cite this article as: Dewar Lisa, Heuberger Roschelle. The effect of acute caffeine intake on insulin sensitivity and glycemic control in people with diabetes. *Diabetes and Metabolic Syndrome: Clinical Research and Reviews* <http://dx.doi.org/10.1016/j.dsx.2017.04.017>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

The effect of acute caffeine intake on insulin sensitivity and glycemic control in people with
diabetes
