This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1 **CRISPR correction of the *PRKAG2* gene mutation in the patient's iPSC-derived cardiomyocytes**  
2 **eliminates the electrophysiological and structural abnormalities**

3  
4 **First author's surname: Ben Jehuda**

5 **Short title: Arrhythmias in *PRKAG2*-mutated patient's iPSC-CMs**
