The role of cardiovascular magnetic resonance in assessing patients with chest pain, increased troponin levels and normal coronary arteries

Sophie Mavrogeni, MD FESC, George Mertzanos, Charalampos Grassos, Nikos Kafkas, Georgia Karabela, Constantina Aggeli, Vasiliki Vartela, Vasilios Voudris, Genovefa Kolovou

PII: S1109-9666(16)30373-6

DOI: [10.1016/j.hjc.2017.02.005](https://doi.org/10.1016/j.hjc.2017.02.005)

Reference: HJC 143

To appear in: *Hellenic Journal of Cardiology*

Received Date: 26 December 2016

Revised Date: 18 February 2017

Accepted Date: 25 February 2017

Please cite this article as: Mavrogeni S, Mertzanos G, Grassos C, Kafkas N, Karabela G, Aggeli C, Vartela V, Voudris V, Kolovou G, The role of cardiovascular magnetic resonance in assessing patients with chest pain, increased troponin levels and normal coronary arteries, *Hellenic Journal of Cardiology* (2017), doi: 10.1016/j.hjc.2017.02.005.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

R1 Letter to the Editor

“The role of cardiovascular magnetic resonance in assessing patients with chest pain, increased troponin levels and normal coronary arteries”

Sophie Mavrogeni 1, George Mertzanos 2, Charalampos Grassos, Nikos Kafkas 2, Georgia Karabela 3, Constantina Aggeli 4, Vasiliki Vartela 1, Vasilios Voudris 1, Genovefa Kolovou 1

1 Onassis Cardiac Surgery Center, Athens, Greece

2 Cardiac clinic of KAT Hospital, Athens, Greece

3 Athens Naval Hospital, Athens, Greece

4 Hippokration Hospital, Athens, Greece

No conflict of interest for any of the authors

Word count: 996

Short title: CMR in chest pain with increased troponin and normal coronaries

Key words: cardiovascular magnetic resonance; Takotsubo cardiomyopathy; myocardial infarction; myocarditis; myocardial fibrosis

There is no disclosure for any of the authors
