This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Title:

Suitability of Cardiac Resynchronisation Therapy in Patients with Fontan Circulation and Congenitally Corrected Transposition of the Great Arteries

Authors:

Demetriades P¹, Bell A², Gubran C¹, Marshall H¹, de Bono J¹, Hudsmith L¹

1. Department of Adult Congenital Heart Disease, Birmingham, United Kingdom
2. University of Birmingham Medical School, Birmingham, United Kingdom

All above authors take responsibility for all aspects of the reliability and freedom from bias of the data presented and their discussed interpretation

Corresponding Author

Name: Dr Polyvios Demetriades

Email: polyvios.demetriades@nhs.net

Postal address: Cardiology Department, Queen Elizabeth Hospital, Mindelsohn Way Edgbaston, Birmingham, B15 2GW (Cardiology secretaries: 0121 371 4494)

Grant support

This research did not receive any specific grant from funding agencies in the public, commercial, or not-for-profit sectors

Conflicts of interest

The authors report no relationships that could be construed as a conflict of interest
