The Influence of Time Point of Blood Pressure Measurement on the Outcome in Hemodialysis Patients

Yu-Chen Han, MD, Bi-Cheng Liu, MD, PhD

PII: S1933-1711(16)30561-7

DOI: [10.1016/j.jash.2016.10.011](https://doi.org/10.1016/j.jash.2016.10.011)

Reference: JASH 972

To appear in: *Journal of the American Society of Hypertension*

Received Date: 22 August 2016

Revised Date: 18 October 2016

Accepted Date: 27 October 2016

Please cite this article as: Han Y-C, Liu B-C, The Influence of Time Point of Blood Pressure Measurement on the Outcome in Hemodialysis Patients, *Journal of the American Society of Hypertension* (2016), doi: 10.1016/j.jash.2016.10.011.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**The Influence of Time Point of Blood Pressure Measurement on
the Outcome in Hemodialysis Patients**
