This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

CT-derived left ventricular global strain in aortic valve stenosis patients: a comparative analysis pre and post transcatheter aortic valve implantation

Marwan M¹, Ammon, F¹, Bittner D¹, Röther J¹, Mekkhala N¹, Hell M¹, Schuhbaeck A¹, Gitsioudis G, Feyrer R², Schlundt C¹, Achenbach S¹, Arnold M¹

² Department of Cardiac Surgery, Friedrich-Alexander-Universität, Germany

Conflict of interest:

Stephan Achenbach has received research grants from Abbott Vascular

Mohamed Marwan has received speaker honoraria from Siemens Healthcare and Edwards Lifesciences

Martin Arnold is a consultant for St. Jude Medical and Edwards Lifesciences
