*Shared first authors.

Running Title: HDL-lipid and apolipoprotein segregation

Subject Codes: Lipids and cholesterol, metabolism, atherosclerosis, cell biology/structural biology.

Word Count: 9,525.

Funding: Research reported in this publication was supported by the National Heart, Lung, and Blood Institute of the National Institutes of Health under Award Numbers HL056865 (CR and HJP), the Bass Foundation (AMG, Fort Worth TX) and Houston Methodist Foundation (Houston TX) funding from Charif Souki, Patrick Studdert and the Jerold B. Katz family.

Disclosures: BKG, CR, and HJP have nothing to disclose. AMG is on the Board of Directors with Aegerion Pharmaceuticals, Arisaph Pharmaceuticals, and Esperion Therapeutics, a member of the Data Safety Monitoring Board for Ionis Pharmaceuticals, and received consulting fees from Kowa Pharmaceuticals, Merck and Co, Pfizer, and Vatera Capital. HJP prepared a n initial draft and
