

Accepted Manuscript

Clinical and biochemical features of different molecular etiologies of familial chylomicronemia

Robert A. Hegele, Amanda J. Berberich, Matthew R. Ban, Jian Wang, Andres Digenio, Veronica J. Alexander, Laura D'Erasmus, Marcello Arca, Alan Jones, Eric Bruckert, Erik S. Stroes, Jean Bergeron, Fernando Civeira, Joseph L. Witztum, Daniel Gaudet

PII: S1933-2874(18)30198-3

DOI: [10.1016/j.jacl.2018.03.093](https://doi.org/10.1016/j.jacl.2018.03.093)

Reference: JACL 1294

To appear in: *Journal of Clinical Lipidology*

Received Date: 9 February 2018

Revised Date: 27 March 2018

Accepted Date: 30 March 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Clinical and biochemical features of different molecular etiologies of familial chylomicronemia
