This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

## Frequent Premature Atrial Complexes As a Predictor of Atrial Fibrillation: Systematic Review and Meta-analysis

### Author contribution

Narut Prasitlumkum	Conception design, data interpretation, draft manuscript, corresponding
Chanavuth Kanitsoraphan	Data acquisition, draft manuscript
Nath Limpruttidham	Data acquisition, data interpretation
Pattara Rattanawong	Data acquisition, data interpretation
Pichatorn Suppakitjanusant,	Data interpretation, data interpretation
Natee Sirinvaravong	Data interpretation
Pakawat Chongsathidkiet	Data acquisition
Eugene H Chung	Data interpretation, manuscript revision
