This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Evaluation of ECG Algorithms Designed to Improve Detect of Transient Myocardial Ischemia to Minimize False Alarms in Patients with Suspected Acute Coronary Syndrome

Pelter, Michele, M, RN, PhD,¹ Xu, Yuan, PhD,² Fidler, Richard, *PhD, MBA, CRNA, NP*³ Ran Xiao, PhD,⁴ Mortara, David, W., PhD,⁵ Hu, Xiao, PhD⁶

¹ Assistant Professor, Department of Physiological Nursing, University of California San Francisco, San Francisco, CA. Conflicts of interest: none

² Clinical Research Coordinator, Department of Physiological Nursing, University of California San Francisco, San Francisco, CA. Conflicts of interest: none

³ Assistant Professor, Department of Physiological Nursing University of California San Francisco, San Francisco, CA., Director of Healthcare Simulation Programs, Co-director Fellowship in Advanced Clinical Simulation, and Chief Nurse Anesthetist for education at the San Francisco VA Medical Center.

Post-Doctoral Scholar, Department of Physiological Nursing, University of California San Francisco, San Francisco, CA.; Conflicts of interest: none

⁴ Associate Professor, Department of Physiological Nursing, University of California San Francisco, San Francisco, CA.; Conflicts of interest: none

⁵ Associate Professor, Department of Physiological Nursing, University of California San Francisco, San Francisco, CA.; Conflicts of interest: none

Funding: This study was supported by grant R21NR011202 (PI - MMP) provided by the National Institutes of Health. The authors have no relationships to disclose with business or industry related to planning, executing, and/or publishing this study.
